

BUGLOCK® PREMIUM

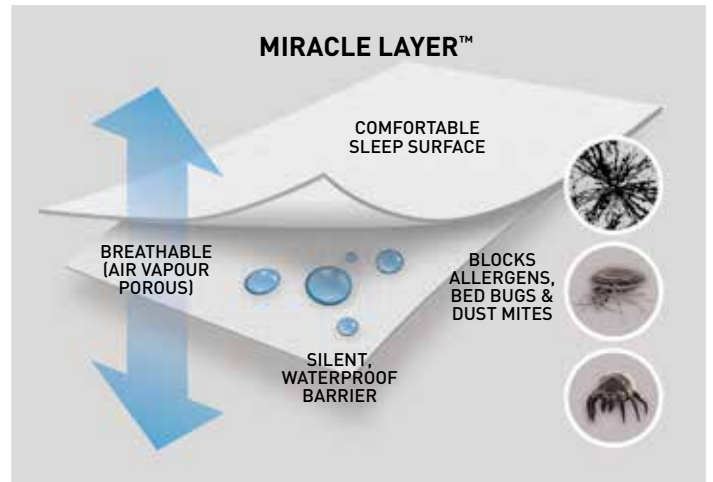

WATERPROOF BED BUG BARRIER

Product Type:
Bed Bug Waterproof Encasement

Product Technology:
Dynatex®

BugLock® Premium not only offers your guests a healthy, hygienic and allergen-free sleeping environment but also protects your mattress and topper investment from accidental water and spill damage. Bed bugs travel in suitcases and only appear at night and can be controlled by using our patented **BugLock®** enclosure system that incorporates a sealed safety trench that is stitched around the typically vulnerable zipper clasp as well as micro-zipper teeth for an extra tight closure. **BugLock® Premium** provides early detection, saving you both time and money by drastically reducing the amount of effort associated with addressing infested bedding.

Our waterproof and **MicroBond™** technologies set the standard in air vapour porous technology. The **Miracle Layer™** is waterproof, breathable and silent, offering guests a peaceful sleep, combined with **DynaTex®** fabric offering a comfortable and smooth sleeping surface. **Freshotel®** understands different depths of mattresses are used in commercial properties and to ensure **BugLock® Premium** is a perfect fit it is offered in both slim and standard depth.

BUGLOCK® PREMIUM WATERPROOF BED BUG BARRIER

FEATURE	SPECIFICATION	BENEFIT
